THE ABDOMINAL SNOWMAN, HUH... DO YOU THINK HE'S ACTUALLY AROUND HERE?
.....
Yeah!
We'll definitely get the yeti this year!

Levia-san

A gigantic sea dragon who takes the form of a mermaid.

She's called "Levia-tan" among her fans.

When she worked for a god, she wore the face a dastardly villian would wear while doing things like creating the great flood and burning humans, but after Ragnarok Armaggedon (end of the world), the now free Levia of the present spends her days peacefully.

In reality, she's an even more free spirit than Muromi.

Yeti

It's gender? Who knows!

In 1951, the local popluation made it known to the public that "The yeti was just a hoax created to attract tourists, tee hee ♡."

Apparently, doing so was unnecessary.

Well, even if it *is* found, the gap between it and the hoax yeti's appearance will be so large that no one will notice.

Other than the human friends it's made, Muromi-san is the first visitor Yeti received in a while.

Yeti likes Muromi-san, but words of that nature would never leave the mouth of a shy kid like Yeti.

Have you ever seen a gorilla-like, ferocious looking monster about thiiiiis tall around here?

I thought I should make an email in case you need to contact me about errors and such you find in future chapters:
